## SAIGON.

FROM A CORRESPONDENT.

LONDON, 14th December.

After a long spell of dry weather we had abundant rains in November which have raised the hopes of the rice cultivators, and according to the reports of the administrators a good if not abundant crop may be expected everywhere. The weather will indeed be a boon to trade which is daily increasing. The Chinese, however, the crops will have been much damaged. The failure among Chinese shopkeepers in Saigon increases alarmingly. Hardly a single shop can be trusted, and the European firms are heavily losers by the numerous bankruptcies.

The session of the Council Colonial opened on the 15th inst., and it is expected that M. Daniel, the Lieutenant-Governor, in his report which has been published, anticipates a deficit of the end of the year of about 30,000,000.

A report by M. Grégoire, Director of Customs, has been issued, in which it is stated that the consumption of opium is greatly decreasing. This is due to the fact that imports of opium to 22,742 kilos in 1888, and it is expected that the returns for 1889 will show a further decrease.

The falling off is attributed not only to the bad weather, but also in great part to the increasing contraband trade, which all efforts of the Customs staffs, M. Grégoire freely admits, are unable to stop. Hence the decline is severely shown to result from Saigon's fall in trade.
